COMISSÃO NAVAL BRASILEIRA EM WASHINGTON

AUTUAÇÃO

Documento Circunstanciado, NUP: 63150.003421/2022-11, autuado na data de 30 de novembro de 2022, destinado à contratação da empresa Washington Gas para fornecimento de gás encanado para as instalações da CNBW, contendo 8 folhas:

- a) Documento Circunstanciado nº 26/2022 às fls. 01 a 04;
- b) Cópia da fatura do mês de fevereiro (inverno), às fls. 05 e 06; e
- c) Cópia da fatura do mês de julho (verão), às fls. 07 e 08.

Washington DC, 30 de novembro de 2022.

ANTONIO LUIZ DO NASCIMENTO ABREU

Capitão de Corveta(AA)
Encarregado da Divisão de Material e Serviços Gerais

EM BRANCO

**MARINHA DO BRASIL
COMISSÃO NAVAL BRASILEIRA EM WASHINGTON**

DOCUMENTO CIRCUNSTANCIADO Nº 26/2022

NUP: 63150.003421/2022-11

1. OBJETO

Contratação do serviço de fornecimento de gás encanado, de forma a garantir a infraestrutura necessária para o desenvolvimento das atividades e o funcionamento da Comissão Naval Brasileira em Washington (CNBW).

2. CARACTERIZAÇÃO DA NECESSIDADE QUE JUSTIFICOU A AQUISIÇÃO DO SERVIÇO

Justifica-se a contratação dos serviços de fornecimento de gás encanado, diante da necessidade, permanente e essencial, de garantia de infraestrutura para funcionamento adequado das instalações desta Comissão Naval.

Na cidade de Washington-DC o serviço de gás encanado é utilizado para aquecer os ambientes, que são submetidos a temperaturas muito baixas no inverno. A interrupção do serviço pode comprometer a saúde das pessoas, impactando no funcionamento regular da instituição.

A empresa Washington Gas, além de atender ao Distrito de Columbia, é a principal fornecedora de gás dos estados de Maryland e Virgínia, com aproximadamente 1,2 milhões de clientes com um serviço de fornecimento de gás seguro e confiável.

Por haver impossibilidade de competição nos serviços de fornecimento de gás, e por se tratar de valor até U\$50,000.00, faz-se necessária a contratação direta por dispensa de licitação conforme previsto no inciso I, art. 27 da Portaria GM-MD nº 5.175, de 15 de dezembro de 2021.

Desta sorte, a dispensa de licitação é a via adequada e efetiva para a contratação do serviço a fim de evitar prejuízos à Administração Naval, em razão da descontinuidade do fornecimento de gás encanado para a tripulação desta Comissão Naval.

Assim sendo, resulta configurada a situação de dispensa descrita no inciso I, do artigo 27 da Portaria nº 5.175, de 15 de dezembro de 2021:

“Art. 27. É dispensável a licitação no exterior:

I - para a aquisição de bens ou contratação de serviços que vise a atender ao funcionamento e manutenção do próprio órgão ou de outras unidades por ele suportadas, desde que também sediadas no exterior, no valor de até US\$ 50,000.00 (cinquenta mil dólares americanos) ou o equivalente em outra moeda;" (grifo nosso)

Diante do exposto, de sorte a evitar grave prejuízo a esta Comissão Naval, a contratação direta por dispensa de licitação é a única medida eficaz e imediata para resolver a necessidade de manutenção do fornecimento de gás encanado para a tripulação.

3. PLANEJAMENTO DA CONTRATAÇÃO

A demanda foi apresentada pela Divisão de Material e Serviços Gerais da Comissão Naval Brasileira em Washington a fim de manter a infraestrutura adequada ao funcionamento desta Organização Militar.

A contratação encontra-se prevista no Programa de Aplicação de Recursos da CNBW (evento PAR 3945.1) aprovado em reunião do Conselho de Gestão, estando, dessa forma, alinhada com o planejamento realizado.

4. DETERMINAÇÃO DE UNIDADES E QUANTIDADES A SEREM ADQUIRIDAS

Trata-se de serviço de natureza contínua a ser prestado de acordo com a demanda da CNBW.

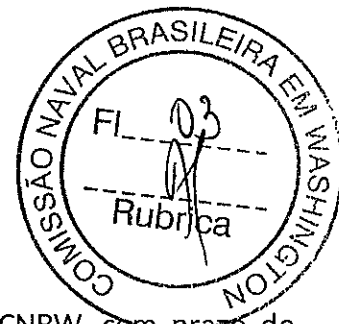

5. ESTIMATIVA DA DESPESA

O preço estimado anual deste contrato é de US\$ 7,400.00 (sete mil e quatrocentos dólares) de acordo com a quantidade de gás utilizado ao mês, acrescido das taxas devidas, aferido pela média de consumo no período dos últimos 12 meses, conforme histórico de contas e suas faturas.

A despesa mensal varia de acordo com a época do ano, uma vez que o sistema de aquecimento é movido à gás, diferentemente do ar-condicionado, onde a energia utilizada é a elétrica. No primeiro caso, o consumo durante o inverno é maior, com média estimada em US\$ 1,400.00 (mil e quatrocentos dólares), enquanto que no verão, a média estimada é de US\$ 200.00 (duzentos dólares).

6. VALOR UNITÁRIO E/OU GLOBAL

O preço estimado anual deste contrato é de US\$ 7,400.00 (sete mil e quatrocentos dólares).

7. PRAZO DE ENTREGA OU CONCLUSÃO DO OBJETO

O objeto será entregue de modo contínuo, conforme demanda da CNBW, com prazo de vigência do contrato de 1 ano, podendo ser prorrogado até o limite de 60 (sessenta) meses, com base no inciso II, do art. 55 da Portaria GM-MD nº 5.175, de 15 de dezembro de 2021.

8. EVENTUAL PRESTAÇÃO DE ASSISTÊNCIA TÉCNICA NO PERÍODO E GARANTIA DO OBJETO

O serviço de fornecimento de gás encanado deverá ser prestado continuamente durante todo o ano de 2022.

A prestação de serviço deverá observar os termos do contrato de adesão, sem atrasos, interrupções ou falhas, salvo na superveniência de fato excepcional ou imprevisível, estranho à vontade das partes, que altere fundamentalmente as condições de execução do serviço, quando deverão ser comunicados tão logo ocorram, para que possam ser analisados quanto à pertinência.

A aceitação do serviço não impede a constatação da existência de vícios e não isenta a empresa de obrigações deles decorrentes.

O contrato será fiscalizado pelo CC (AA) Antonio Luiz do Nascimento Abreu.

9. CONDIÇÕES DE GUARDA E ARMAZENAMENTO

Não se aplica, por se tratar de prestação de serviço.

10. PRAZOS PARA LIQUIDAÇÃO E PAGAMENTO

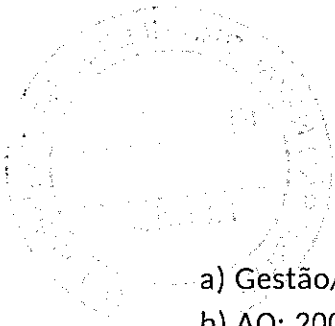

O pagamento será realizado após a devida liquidação, conforme dispõe a Lei nº 4.320, de 17 de março de 1964.

As faturas emitidas pela CONTRATADA devem estar em conformidade estritamente com o contrato de adesão e com qualquer alteração que possa ter sido acordada e assinada pelas partes.

Os serviços públicos, fornecidos por meio de concessionária, formalizam-se como típicas relações contratuais, de modo que, no momento em que deles se utiliza, se está, de certa forma, aderindo às condições que lhe são impostas pelo prestador do serviço em contrato de adesão, dando ensejo à remuneração devida.

A CONTRATADA deverá encaminhar à CNBW a fatura do fornecimento correspondente à leitura do período de consumo abrangido, com o respectivo preço e com prazo de pagamento, também por meio do e-mail cnbw.services@marinha.mil.br, contendo as informações bancárias para pagamento.

11. DEMONSTRAÇÃO DA COMPATIBILIDADE DA PREVISÃO DE RECURSOS ORÇAMENTÁRIOS COM O COMPROMISSO A SER ASSUMIDO

- a) Gestão/Unidade: 0001/70200 - CNBW
- b) AO: 2000 Administração da unidade
- c) Ação Interna: G.483.MN.1
- d) Elemento de despesa: 33903945

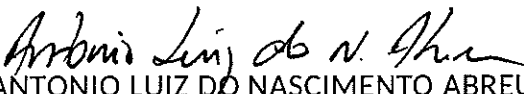

Há previsão orçamentária no PA aprovado para 2022.

12. CONCLUSÃO

Em face do exposto e da documentação apresentada, sugere-se que o objeto seja contratado, com base no art. 1º, § 2º, da Lei nº 14.133, de 1º de abril de 2021, combinado com o Art. nº 27, inciso I da Portaria GM-MD nº 5.175, de 15 de dezembro de 2021.

Elaborado por:

Washington, DC, 29 de novembro de 2022.

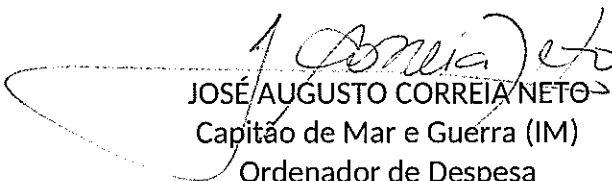

ANTONIO LUIZ DO NASCIMENTO ABREU
Capitão de Corveta (AA)

Encarregado da Divisão de Material e Serviços Gerais

13. ATO DE AUTORIZAÇÃO DA CONTRATAÇÃO DIRETA:

Aprovo a contratação prevista neste Documento Circunstanciado, sendo entendido como viável e razoável à luz das justificativas apresentadas.

Washington DC, 29 de novembro de 2022.

JOSÉ AUGUSTO CORREIA NETO
Capitão de Mar e Guerra (IM)
Ordenador de Despesa

Useful Information

CCF: A unit of measurement for the amount of gas used. One CCF = 100 cubic feet.

Distribution charge: Covers the monthly cost of transporting your gas through our pipes and storage tanks to your meter. The charge is based on the amount of gas used.

Customer charge: Covers certain other costs of providing your service, including depreciation of equipment, taxes, maintenance and repair of customer lines, and expenses such as meter reading and billing.

PGC (Purchased Gas Charge): The cost of the natural gas we buy, plus the cost of transporting it to our system.

Therm (TH): A measure of the energy in natural gas, equal to the amount of gas (in CCFs) times a heat content factor.
