These items are controlled by the U.S. government and authorized for export only to the country of ultimate destination for use by the ultimate consignee or end-user(s) herein identified. They may not be resold, transferred, or otherwise disposed of, to any other country or to any person other than the authorized ultimate consignee or end-user(s), either in their original form or after being incorporated into other items, without first obtaining approval from the U.S. government or as otherwise authorized by U.S. law and regulations.

Customer is responsible for any Customs Fees, Duties/Taxes and/or VAT and local delivery charges.

Any solid wood packing material provided by Sea-Bird Scientific is compliant with the International Standards for Phytosanitary Measures, Publication 15, March 2002 (ISPM 15). The material used consists of processed wood material and solid sawn wood subjected to the approved heat treatment. Those packages that use heat treated wood have been certified as being compliant with ISPM 15 and the International Plant Protection Convention (IPPC) and are so marked by an approved and inspected agent (Number US-4522) of the American Lumber Standard Committee.

Any manufactured wood material provided by Sea-Bird Scientific is comprised of Plywood, 100% free of solid wood materials, and exempt from ISPM 15. The packaging material is produced under high temperature and high-pressure during production, automatically heat-treating the boxes. No fumigation certificate is required.
